

Bason Asset Management LLC
CLIENT RELATIONSHIP SUMMARY v. February 2, 2022

This is the Client Relationship Summary for Bason Asset Management, an SEC-Registered Investment Adviser. Brokerage and Investment Advisory services and fees differ, and it is important that you understand those differences.

Free and simple tools are available to you to research firms and financial professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing.

What investment services and advice can you provide me?

The investment advisory services we provide include: a comprehensive service combining financial planning and portfolio management services; and, standalone, project-based, financial planning services.

Our comprehensive service provides continuous monitoring of your investments; we do not monitor your investments in our stand-alone, project-based financial planning service.

For clients who choose our comprehensive service, we take discretionary authority in your accounts, which allows us to buy and sell investments in your account without asking you in advance. We do not place trades on behalf of stand-alone, project-based financial planning service clients.

Our investment recommendations are primarily limited to open-end mutual funds and exchange-traded funds. We also advise clients with existing positions in individual stocks and other securities, but do not advise our clients to invest in individual stocks and bonds.

We do not have minimum account sizes or investment amounts.

For more information, please review our disclosure brochure, which is available [here](#).

Ask us: Given my financial situation, should I choose an investment advisor service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

What fees will I pay?

You will pay an initial fixed fee followed by an ongoing fixed fee billed in quarterly installments, in advance, for our ongoing comprehensive services. You will pay a fixed fee, billed no less than quarterly, in arrears, for project-based financial planning. The differences in the fees are in their duration; ongoing service fees continue until terminated by you or Bason, while project-based fees end after completion of the project and payment of the amount due. You will also incur other fees including brokerage fees and commissions, management fees for mutual funds and ETFs, custodian fees, retirement account annual fees, trade ticket charges, or banking fees in connection with an investment account and the securities in the account; Bason does not receive any of these fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For more information, please review our disclosure brochure, which is available [here](#).

Ask us: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

Bason Asset Management LLC
CLIENT RELATIONSHIP SUMMARY v. February 2, 2022

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

While Bason works to minimize conflicts with clients simply setting a fee for our services creates a conflict; it incentivizes us to charge you more rather than less for our services.

Ask us: *How might your conflicts of interest affect me, and how will you address them?*

For more information, please review our disclosure brochure, which is available [here](#).

How do your financial professionals make money?

Our firm's only compensation comes from our advisory fees. All Advisors of Bason Asset Management receive a portion of fees generated by clients they serve and no other compensation. All advisors of Bason Asset Management contribute to business expenses out of revenue generated by clients. No one at the firm – other than as described – is compensated based upon: the amount of client assets they service; the product sold (i.e., differential compensation); product sales commissions; or revenue the firm earns from the financial professional's advisory services or recommendations.

Do you or your financial professionals have legal or disciplinary history?

No; however, Investor.gov/CRS has a free and simple search tool that allows you to research your financial professionals.

Ask us: *As a financial professional, do you have any disciplinary history? For what type of conduct?*

You can find more information about our investment advisory services [here](#).

You can also contact us at (720) 446-8555 if you have any questions or to request a copy of the relationship summary.

Ask us: *Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?*
